Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

1. Claims 1-6 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on August 27, 2004.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 7-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 7 recites the limitation "the data for ordering items from an independent distributor of the franchise supply chain" in line 10. There is insufficient antecedent basis for this limitation in the claim.

Claim 7 recites the limitation "the independent distributors" in line 15. There is insufficient antecedent basis for this limitation in the claim.

It is unclear in claim 7 in line 18 what is being referred to in regard to "the data" as there is previously cited a reference to "data relating to an amount of products sold" in line 8 and "quality data" in line 14.

Art Unit: 3627

Claim 13 recites the limitation "the data for ordering items from an independent distributor of the franchise supply chain" in line 10. There is insufficient antecedent basis for this limitation in the claim.

Claim 13 recites the limitation "the independent distributors" in line 16. There is insufficient antecedent basis for this limitation in the claim.

It is unclear in claim 13 in line 19 what is being referred to in regard to "the data" as there is previously cited a reference to "data relating to an amount of products sold" in line 8 and "quality data" in line 15.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 7-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over "Cover Story: Supply Chain Management Quarterly Efficient Foodservice Response Moving Towards Efficiency" (Supply Chain) in view of Shavit et al. (US Patent 4,799,156).

Supply Chain discloses the claimed system, and computer program product for product tracking in a supply chain management but is silent regarding the specifics of how the system is networked and how electronic orders are carried out. Shavit et al. teaches specifics on how a supply chain system is set up and the generation of

Art Unit: 3627

electronic orders to provide communication of all kinds of information between suppliers, distributors and buyers. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the product tracking system of Supply Chain with the networked system and generation of electronic orders as taught by Shavit et al., in order to provide communication of all kinds of information between suppliers, distributors and buyers..

Regarding the use of the Internet, it would be obvious to one of ordinary skill in the art to use the Internet for the network because it is broad reaching, cost effective and a fast network communication mode.

Response to Arguments

6. Applicant's arguments with respect to claims 7-18 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 3627

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
